STAR Awards will present a dozen awards recognizing student groups who have excelled in a number of areas, including such categories as Multicultural Program, Membership Development, Philanthropic Program, and the much-coveted Mark of Distinction.

This is also the opportunity for students to recognize individual members of their organizations who have gone above and beyond by nominating them for Outstanding Freshman, Outstanding Leader, Community Service, and more.

IN THE SPOTLIGHT

Sarah Douglass, Advisor, Gamma Phi Beta

Sarah graduated with a bachelors in Psychology and Business from University of Tennessee and her masters in Student Affairs from Indiana University. Convinced she has the longest job title, Sarah is the Career Resource Specialist and Legislative Intern Manager in the Career Center.

Sarah says, "as Gamma Phi's advisor, I get to work with a wonderful group of ladies who are establishing their own traditions and identity on campus- that is a completely new and different experience for me and I feel very lucky to be able to support them here."

Lindsey Berger, President, Students for a Sustainable Future

Lindsey, along with cofounder John Chiles, created their organization Student for a Sustainable Future (SSF) to educate students on the severity of global warming. SSF puts on events such as Ecopalooza and Teach-In. SSF will also be participating in Power Shift 2009,

where 10,000 plus students are brought to Washington, D.C. to "hold our elected officials accountable for rebuilding our economy and reclaiming our future through bold climate and clean energy policy." Students will have the unique experience of meeting with elected

officials one-on-one. If your organization is interested in being a little more "eco-minded" but not sure where to start, let SSF know. SSF would be glad to help make your events and activities more sustainable! StudentsforaSustainableFuture@missouristate.edu
